DRUMB & SUTOR, Publishers

CHAMBERS' CASH LIVERY.

Having purchased the Whier
hearse and hack, I am prepared
to furnish service along this line
for those desiring same.

Hack orders a specialty and promptly attended to at
reasonable prices

I also do a General Livery Business

A. I. Chambers Proprietor

MRS. M. A. BUDDLE
Massage and
Hair Dressing

With The Arnold Electro Massage
Vibrator, either at home or at my resi-
dence. All calls promptly attended to.
Call at 317 Oak Street or Telephone
No. 93.

Homeseekers Rates.

The Wisconsin Central Railway
will sell Homeseekers tickets to points
in the west, northwest and southwest
on the first and third Tuesdays of
each month. Apply to local agent
or information.

Wood for Sale.

Wood for Sale, \$1.50 to \$2.00 per
cord. J. G. Hamilton, telephone 364.

Want Game Laws Changed.

Assemblyman Hambrecht has been
interviewed by some of our local
sportsmen who want the law govern-
ing the open season for chickens
changed somewhat. As the law now
stands there are only fifteen days in
the year in which to hunt prairie
chickens. This is all right for two
men who can take a week or two
hunting, but for the man who has to
work for a living and who probably has
only one day in the week on which to
hunt, it means only about two days
hunting for him. Some of the
hunters want the same as it did
before, while others want it to open
the 15th of September and continue
open for one month.

Some of the hunters also want the
deer law changed so that each hunter
will be entitled to only one deer.

ADDITIONAL LOCAL

Olms, Laramie visited with friends
in Marshfield on Monday.

Atty. J. W. Cochran transacted
business in Wausau on Monday.

Everyone is looking for some-
thing for nothing. The Muir Shoe
company have it.

Mr. and Mrs. Fred Wittenberg were
called to Oconto Saturday to attend
the funeral of a relative.

J. P. Horton, of the Grand Rapids
Milling Co. was a business visitor in
Milwaukee on Thursday.

Mrs. John Stillman of the town
of Sigel favored the Tribune office
with a pleasant call on Tuesday.

Ever wear "Lafayette" shoes?
Ask Muir about how to get a pair for
nothing. It's easy.

The Elks are flurrying on giving a
home talent play during the ensuing
winter, but the details have not been
arranged as yet.

Reimer Mitten of the town of
Port Edwards visited relatives in
the city Tuesday. The Tribune ac-
knowledges a pleasant call.

A. J. Hasbrouck purchased a hand-
some pair of chestnut drivers for his
livery stable the past week. The
horses were bought in Portage county.

Frank Kaminski has resigned his
position as assistant bookkeeper with
the Johnson & Hill company, and has
returned to his home at Wild Rose.

The stockholders of the Grand
Rapids Brewing Co. will hold their
annual meeting in the offices of the
brewery Thursday evening, Jan. 14th.

Geo. N. Wood, the well known
real estate man returned on Friday
from Hudson and Minneapolis where
he had spent ten days visiting with
friends.

H. H. Gohbart of Black River
Falls was a pleasant caller at the
Tribune office on Monday, being in
the city to attend the winter session
of the Wisconsin State Cranberry
Growers' Association.

Fred Schmalz will leave on Mon-
day for a two months business trip
thru the west for the F. MacKinnon
Mfg. Co. Mr. Schmalz will visit
thirteen states including California,
Old and New Mexico.

Wood & Reeves will sell you a
residence lot, on good road, near fac-
tory district, at \$30 to \$75; one dollar
down, balance 50c per week. First
year, no taxes, interest or mortgage.

S. N. Whittlesey of Cranmoor
favored the Tribune office with a
pleasant call this morning, being in
the city to attend the cranberry
meeting. Mr. Whittlesey left as a
sample of the Haskins Prolific cran-
berry, which are handsome fruit, of
large size and a beautiful color.

Merrill Star:—Mrs. J. L. Fisher
was hostess to a company of ladies
Thursday afternoon in honor of
Mrs. John Van Haeckel of Grand
Rapids. Whist was the pastime of
the afternoon after which a dainty
and delectable luncheon was served
and much enjoyed by all present.

When they get to making paper
and molasses out of corn stalks, some
people think it will be a great thing
for the farmers. This is what they
thought a number of years ago when
the process of making molasses from
corn was discovered. All it did
for the farmer, and the rest of us too,
for that matter, was to make it
possible to adulterate all kinds of
cane syrup with such ease that it is
now impossible to secure pure cane
syrup at any price.

There were a few newspaper men
who, when a fine of \$20,000,000 was
imposed on the Standard Oil Co.,
came right out and made a note of the
fact that some people had said the
government had never chartered a
corporation, but called on them to
just notice the way the Standard Oil
company had been spanked for their
naughtiness. Well, the fine wasn't
paid, and the highest court of the
land has decided that the company
does not need to pay, and there you
are. A man who has twenty-nine
millions of dollars need not worry
about having to pay it out for fines.
The matter can generally be settled
for considerably less than this amount.

When the dams at Kilbourn and
Prairie du Sac shall have been com-
pleted, the Southern Wisconsin Power
company claims that it will be able
to furnish power equivalent to the
burning of 250,000 tons of coal a year,
and at about half the rates now pre-
vailing. The dam when finished, it is
expected to furnish 16,000 horse power.

About half of the power at Kilbourn
will be used by the Milwaukee street
railway company. The work at Kil-
bourn has been delayed by local ob-
struction, as the Kilbourn waterworks
was in danger of being flooded, but
the power company has agreed to
protect these works and pay all costs.
The people of the power company also
insist that the scenic beauty of the
delta will not be spoiled, but instead,
enhanced and enlarged.

CRANBERRY SESSION

Growers Hold Interesting Session
in the City Hall on
Tuesday

The weather was just a trifle cold
on Tuesday morning, the thermometer
registering from twenty-five to thirty
below zero, to get out a very big
crowd to the winter meeting of the
Wisconsin State Cranberry Growers'
Association held at the city hall
yesterday, and yet there were about
forty in attendance.

President A. E. Bennett called the
meeting to order. After the reading
of the minutes the reports of the
Secretary, J. W. Fitch and treasurer,
J. J. Emmerick were read and ac-
crued, the treasurer's report showing
\$145.33 on hand.

The paper sent by Dr. Charles L.
Shear, Pathologist United States De-
partment of Agriculture, which was
read by the Secretary, explained very
clearly the causes and remedies so
far discovered of the blossom blast
and blight in Wisconsin, which were
clearly and carefully answered by
Prof. Whitson, Mr. Malde, Judge
Gaynor and others.

On account of illness of Prof.
Whitson had not been able to prepare
a special address but he desired to
bring out some of the points in Dr.
Shear's paper, particularly as to the
heavy growth of vines which he
stated was not necessarily detrimental
to the growth of fruit. In Cape Cod
they got heavy crops from small
growth of vines while in New Jersey
heavy vines curried large crops.

The main points brought out were
drainage, sanding, clean culture as
necessary to the growing of profitable
crops in Wisconsin.

The report of the years work at the
experimental station by O. G. Malde
brought out the facts that the newly
sanded bog suffered very little from
winter killing though exposed to last
winters severe weather.

The paper of Mr. Charles A.
Lewis Jr. of St. Paul, Minn., was
read by Mr. E. C. Lewis of Chicago,
Ill., and was very fine account of
the observations and conclusions
which he had acquired during his
summers work with Mr. Malde and
Mr. Hardeburg at the experiment
station.

Mr. O. G. Malde had a very in-
teresting account of the possibilities
of raising cranberries in northern
Wisconsin. He was of the opinion
that there were many choice locations
in that part of the state.

Mr. A. C. Bennett gave a very
practical talk on the proper way to
build dams and out ditches, also how
to put in sluices that will not wash
out. Mr. Bennett's methods were a
revelation to many of the growers
and were very favorably commented
on.

Judge Gaynor's talk on "How to
Keep the Berries After the Picking"
brought out many facts new to the
growers as to the effect of warm and
damp conditions, a cool dry condition
being the ideal condition for best
keeping.

The election of officers resulted as
follows: E. K. Tattle, Mather,
President; O. S. Potter, Grand Rap-
ids, Vice President; J. W. Fitch,
Cranmoor, Secretary; J. J. Emmerick,
Cranmoor, Treasurer; A. S. Warner,
Warrens, member of executive com-
mittee.

A resolution thanking Dr. Shear
for his paper and valuable work and
expressing the hope that he would be
able to meet with the Association
in August, was adopted. It was
voted to co-operate with the experi-
mental station in testing the possi-
bilities of pumping for irrigation pur-
poses. It was also voted to continue
the campaign of advertising the cran-
berry as a food and the proper method
of cooking and keeping.

Will Build New Bank.

The stockholders of the Wood
County National bank held their
annual meeting on Tuesday afternoon
at the bank building in this city.
The stockholders were well pleased
with the report of the past year's
business, and all of the old officers
were re-elected to fill their respective
positions for the coming year.

It was also decided to build a new
bank building during the coming
season, same to be located on the
Farrish lot across from where the
present bank now stands. Of course
it is too early to give much of an idea
of what will be built there but it is
the intention to have a modern and
up to date building as it is possible
to have. The lot is fifty feet wide
and the building will be this width
and run back as far as necessary in
order to give them the needed room,
and the building will be two stories
in height.

The erection of a modern bank
building on that corner will certainly
be a great improvement so far as the
appearance of things is concerned.

Federation Meeting.

The members of the Federated
clubs held their meeting on Wednes-
day evening at the F. MacKinnon
home, and notwithstanding the fact
that the weather was extremely cold
there was a fairly good attendance.

A program had been prepared which
was carried out, besides which there
was a report from the relief com-
mittee, which told of the work done
by these ladies during the past
winter. They have aided about
twenty-five needy families, most of
the work being about Christmas time,
when an attempt was made to give
the poor children some idea of what
is meant by Christmas cheer. The
committee reports also that a quantity
of warm clothing could be used and
that people who have anything of
this kind to contribute will do well
to communicate with Mrs. L. E. Nash,
Mrs. Geo. L. Williams, Mrs. Guy C.
Babcock, Mrs. E. B. Brundage and
Mrs. E. W. Ellis.

ADVERTISED LETTERS

Ladies, Anderson, Mrs. Allen, 2
pennies and card; Ayler, Mrs. Rebecca;
Baker, Miss Mary L.; Corwin, Miss
Estella, card; Dunsen, Mrs. M.; card;
Gray, Miss Blanche, card; Hanson,
Miss Clara, card; Johnson, Mrs. Ann
M.; Johnson, Miss Louise, card;
Kuntz, Miss T.; Larson, Mrs. J. L.;
card; Langworthy, Miss Grace;
Plunkett, Miss Rose; Stahl, Miss
Mabel, card; Sowatzke, Loria, card.

Gentlemen, Govey, A. N. to U.
Guthrie, Fred, card; Hanson, Harry
M.; Hayes, Mike, 2; Koehler,
John, card; Kiemer, Adolf, card;

card; Steward, G.; card; Schultz,
Grover, card; Weinbrenner, Calvin,
card.

Adams-Loock.

Wm. Adams of Babcock and Miss
Minnie Loock of this city were mar-
ried on Saturday afternoon at the
home of the bride's parents on the
east side, Rev. H. Maack, pastor of
the east side Lutheran church
officiating. They were accompanied
by Miss Bertha Gattler and Fred
Loock as bridesmaid and groomsmen.

After the ceremony the guests were
served with a beautiful wedding
supper and the young couple left the
same evening for Babcock where they
will make their home.

Death of James Misco.

James H. Misco, one of the old
residents of this section, died at his
home on the east side south of the
city on Friday after an illness of some
length from bright's disease.

Deceased was born on the 12th of
August, 1832, and was consequently
76 years old. He has been a resident
of this part of the country for many
years, having at one time been a
riverman on the Wisconsin and was
well known to the old residents.

Among the surviving children are
Hugh Misco of Chicago and Pat
Misco of Port Edwards. The
funeral was held on Monday from the
Catholic church in this city, the re-
mains being interred in Calvary
cemetery.

Lecture on Lincoln.

The members of the Federated
clubs have arranged for a lecture on
Abraham Lincoln to be given in this
city during the early part of Febru-
ary. The lecture will be by J.
Everest Cathell, who travels under
the auspices of the Slayton Lyceum
bureau.

The hundredth anniversary of the
birth of Lincoln occurs on the 12th
of February, so that a lecture at the
proposed date is most timely and
should be largely attended.

Band Concert Date.

Holders of season tickets to the
series of band concerts are requested
to take notice that the date of the
next band concert has been fixed for
Friday evening, January 22d. It
will probably be possible to publish
a program next week. The boys are
rehearsing some good music and they
hope to make the coming concert even
more pleasing than anything that has
gone before.

May Build Adams County Road.

Friendship, Wis., Jan. 9.—J. J.
Burns, manager of Burns & Co.,
Chicago, has written to friends in
this village saying that his firm has
not abandoned the project of build-
ing a railroad in Adams county and
that a new proposition will be made
after a conference with the people
interested.

A pair of ladies shoes free for
somebody. Better find out about it.
The Muir Shoe will explain.

Miss Lizzie Plamack visited with
her parents in Marshfield on Tuesday.

LIGHT MEN MEET
Decide to Raise Money to Make
Necessary Alterations and
Repairs to Plant

The regular annual meeting of the
Electric & Water Company was held
at the city hall last night, and it re-
sulted in a very interesting session.
When the roll was called it was found
that there was a majority of the
stock represented, so that the body
immediately proceeded to business.

One of the matters that was
brought up was the matter of
reorganizing the company, and
changing it from a co-operative com-
pany to an ordinary corporation
where it would be run for the benefit
of the stockholders. A committee
had been appointed at a previous
meeting for the purpose of formu-
lating a plan of reorganization and it
was expected that this committee
would report at this meeting, but it
seems that nothing definite had been
done about the matter, so that the
only report from them was a short
verbal one from Judge Gaynor, who
was a member of the committee, and
who stated that so far as he knew
nothing had been done about the
matter.

At the last meeting of the company
a plan for rebuilding the system was
submitted by Mr. Y. D. Simon,
who had proposed same at the request
of the directors, and this showed
that it would be necessary to raise
about seven thousand dollars to do
the necessary work, and working
along these lines a resolution was
presented which provides for the
bonding of the present company for
the sum of \$25,000 which amount will
be used to pay off the present indebt-
ness and also to make the needed
improvements.

The motion to pass this resolution
called forth some very good discussions
from these present, some of which
were for the issue of the bonds and
some of which were against it. It
was the opinion of some present that
it would be impossible to sell bonds
that were given by a company or-
ganized in the manner that the pre-
sent one is, that is on a co-operative
plan, where the stock of the company
was one of its first liabilities, but it
was suggested that the resolution be
passed and then if it were found that
it was necessary to make some changes
in order to sell the bonds, the changes
could be made. Very little sentiment
was expressed, however, toward re-
organizing the company into a cor-
poration as was suggested some time
ago.

For a year and a half past the
Electric & Water company has been
taking its current from the Consoli-
dated people, and from the sentiment
expressed by the officers at the meet-
ing last night, it is evident that they
are well pleased with the scheme and
with the price they have been pay-
ing, as well as the treatment they
have received from the Consolidated
people. The latter have put them-
selves out in a financial way in order
to give them with a steady current at
all times, and this was done not-
withstanding the fact that their con-
tract with the electric company ran
for only one year. After the dis-
cussion was ended the resolution to
bond the company was passed
unanimously.

The election of officers resulted in
the re-election of those already in
office, they being J. A. Gaynor, E.
P. Arlin, D. D. Conway, O. R.
Kontus and John Schmalz.

The statement made by the officers
showed that the company has done
very well during the past year,
having made a gain of about two
thousand dollars, notwithstanding the
fact that ten per cent was charged off
for depreciation.

RUDOLPH

The dance which was to be given on the 14th has been postponed to a future time on account of there being so much sickness.

Grover Akoy went up to Merrill Wednesday to visit friends and relatives.

Mrs. Peter Golder is on the sick list.

Miss Anna Albert was in your city on Saturday.

The Jacob Weyers home is quarantined on account of diphtheria.

Miss Tina Benson went to Grand Rapids Saturday.

Pearl Clark has returned from Port Edwards where she had been visiting her sister, Mrs. L. Whitmore.

Gertrude Akoy came up from Grand Rapids to spend Sunday with her parents.

There was a party at the Nels Nelson home on Saturday evening. A large crowd was present and all report a grand time.

Theodore DeFazio is on the sick list.

John Hassell has returned from Wausau.

School in Dist. No. 4 started Monday.

Elmer Grotte and three children are visiting Mr. Grotte's mother, Mrs. C. Grotte.

James Grotte had the misfortune to freeze both his ears very badly on Tuesday.

Lizzie Korsten came up from Grand Rapids on Saturday to visit at the Matt Korsten home.

Miss Mattie Statutory spent Sunday with her parents.

Mr. and Mrs. Wewer came over from Biron on Saturday to visit with Mrs. Wewer's parents, Mr. and Mrs. James Goley.

We are all very glad to hear that John Bates is on the road to recovery.

Mr. and Mrs. Eugene Grotte and Miss Bertha Akoy spent Sunday at the Buel Grotte home.

Thus, Bratton, who has been seriously ill with pneumonia, is on the gain.

Sinton Grotte is failing very rapidly and his relatives have no hope for his recovery.

MEEHAN

School commenced Monday after a week's vacation.

Miss Anna Hoffman of Keweenaw was visiting friends here last week.

Several from here will have logs to the mill near David Hetzels farm this winter.

We understand that Matt Hemmis has rented his farm for a term of years to a man from Stockholm.

Joseph Rosenthal is hauling rock, so he intends to build an upright in his house next summer.

Several parties are hauling their pulp wood to Whiting. \$3.50 per cord is being paid for Jack pine.

Beattie and Merrill have the basement of their new house about finished. The work of building will be pushed as fast as the weather will permit.

E. J. Thompson is now nicely located in his new house. Elmer desires to say that the neighbors were very kind to help him build his new dwelling and otherwise assist him after the cyclone had destroyed his buildings, and he wishes to extend to them his sincere thanks and to say that a friend in need is a friend indeed.

PORT EDWARDS.

G. F. Steele returned from a business trip Sunday morning.

Peter Golla met with what might have been a very serious accident in the mill Monday, since which time he has been nursing a severe scalp wound but he hopes to be able to resume work in a few days.

Catholic services will be held in the church at 8:30 next Sunday Rev. Jos. Feldmann officiating.

Sam Steele has been very sick with an attack of the measles.

Ray Shellhammer has resigned his position in the Fibre mill. The position is now filled by Thomas Mullins. The woodwork of the Fibre mill is now working night and day.

The Catholic congregation held a meeting Sunday afternoon to arrange for the building of a church in the spring.

Frank Willers has been confined to the house for a few days with a serious attack of quinsy.

Mrs. Short and Mrs. Vilas of Nokosa assisted the White City camp of Royal Neighbors in the election of officers Wednesday evening.

Miss Louise Odores was called home on Friday by the illness of her mother, who is suffering with a slight attack of pneumonia.

Mrs. F. Armon who has been visiting her daughter, at Minneapolis the past two weeks, returned home Thursday.

Mr. and Mrs. C. E. Holko spent Sunday at Rudolph the guests of Mr. and Mrs. P. Odores.

Mrs. Maestas F. Noel, W. Corvirean, J. E. Aoutt and O. W. Dodge and Miss Ada Aoutt were Saturday shoppers in your city.

A few people from here attended the funeral of Mr. Miscoil in your city Monday. Mr. Miscoil was formerly of this place.

The E. F. U. gave a big free dance and supper in the hall Tuesday evening. It was well attended and all report a good time.

SIGEL

Mr. and Mrs. John Jagodzinski returned on Friday from a two weeks visit with relatives and friends in Chicago and Milwaukee. They report a most pleasant time.

Mr. and Mrs. F. Kleven were visiting at the Brehm home Thursday evening.

Frank Kleven bought a valuable horse last week.

Miss Minnie Brehm attended an entertainment at Gramsfor last Saturday night.

The wedding bells will soon be ringing for Ed and Louise.

Mr. and Mrs. Ed Polanski attended the funeral of Wm. Hanks last week.

Rev. Wm. Glechman did not attend the ministers meeting at Stevens Point on account of the funeral this week.

Mr. Nelson left for Sherry last Sunday.

Willie Brehm was on the sick list last week but is some what better at this writing.

Miss Selma Schmitz, who is employed at Mrs. P. Pomerville's, spent last Sunday with her parents in the town of Sigel.

Mr. and Mrs. Joseph Jackson and family of Grand Rapids were the guests of Mr. and Mrs. Matt Mroz on Sunday and also attended the Birth of Christ theatre in the Polish hall.

Frank Cronk and Sherry Green were seen in town on Friday.

Mr. and Mrs. John Sedall of Winona, Minn., are visiting at the home of Frank Sedall and will soon depart for Chicago where they will attend the wedding of Frank Sedall, Jr.

The Jagodzinski boys are busy hauling wood nowadays.

Frank Brostowicz has gone to St. Francis where he is attending school.

Mrs. Mike Kubiak of Grand Rapids was visiting at the home of Mr. and Mrs. Vincent Brostowicz over Sunday.

Miss Louise Brostowicz of Sigel was visiting at the Lawrence Skulmowski home last week.

John and Joe Krywokowsky departed on Saturday for Hull, Wis., to attend the wedding of a friend.

Leon Mroz, son of Mr. and Mrs. Matt Mroz, was visiting at home Sunday.

The weather was quite cold last week.

A honcing baby boy arrived at the home of Mr. and Mrs. John Tomczyk.

If you will take Foley's Orino Laxative until the bowels become regular you will not have to take purgatives constantly, as Foley's Orino Laxative cures chronic constipation and sluggish liver. Pleasant to take. Daily Drug & Jewelry Co. and Johnson & Hill Co.

BIRON.

Mr. and Mrs. Jeff DoMars and Miss Libbie McGreger spent Sunday at Rudolph, the guests of the latter's mother, Mrs. George McGreger.

Mrs. Archie Shearer and children were the guests of relatives in your city Sunday.

Jim Goley and Nic Maroon of Rudolph were in our burg Saturday.

Mrs. Curtis Grotte visited her parents, Mr. and Mrs. Joe Raymon last Friday.

Mr. and Mrs. Eugene Grotte and Miss Bertha Akoy spent Sunday at Rudolph, the guests of the former's parents, Mr. and Mrs. Israel Grotte and Miss Hattie.

Misses Anna Smith and Nannie McGowan of your city were Sunday guests of Mrs. Owen Lachlin.

John Shumack has moved his house, hold goods and family to your city. The vacant house was occupied immediately by the Kaskis family.

Mrs. Larson has returned from her visit at Milwaukee.

Mr. and Mrs. Joe Sweeney and children spent Sunday in Rudolph with relatives.

Miss Lillian Chapp of your city spent the past week in this burg with relatives, the Archie Shearer family.

Louis Chapp and son Spencer were Sunday guests of Will Harroun and family.

Elmer Bolewick went to Stevens Point Saturday.

Mr. and Mrs. Clarence Sipe and Mr. and Mrs. Ernest Peterson were guests of relatives at the south side Sunday.

Fever Sores.

Fever sores and old chronic sores should be treated entirely, but should be kept in healthy condition. This can be done by applying Chamberlain's Salve. This salve has no equal for this purpose. It is also superior for chapped hands, sore nipples, burns and diseases of the skin. For sale by Daily Drug & Jewelry Co.

BLENKER.

Louis Brandt, son of Mr. and Mrs. Joe Brandt who was taken to the St. Joseph hospital at Marshfield the latter part of last week to undergo an operation for appendicitis, died at that place Saturday and was taken home Sunday. He is survived by his father and mother, three sisters and two brothers.

Miss Margaret Blenker departed Monday for Minneapolis where she will stay for an indefinite length of time.

Mr. and Mrs. J. C. Kieffer of Auburn were pleasant callers of the latter's parents, Mr. and Mrs. J. Blenker last Monday.

Mrs. Geo. Davol and children of Auburn called on her sister Mrs. Henry Blenker, Sunday.

Louis Blenker was a Milladore visitor Sunday. He is quite a regular caller at that place, must be some attraction there for Mr. Blenker. We wonder what it is. What is it Louis?

News reached here of the death of Mrs. J. Altmann which occurred at Milwaukee Friday. The remains will be brought here for burial.

Miss Josephine Varaho of Sherry was a guest at the Blenker home Sunday.

Simple Remedy for LaGrippe.

Racking la grippe coughs that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar. The sore and inflamed lungs are cooled and strengthened, and a dangerous condition is quickly averted. Take only Foley's Honey and Tar in the yellow package. Daily Drug & Jewelry Co. and Johnson & Hill Co.

WISCONSIN UNIVERSITY

RANKS FIRST

Noted Writer Says Badger Institution Is Foremost Among State Universities in Service to the Commonwealth.

"A recent book entitled 'Which College for the Boy,' by Mr. John Corbin, describes very fully the workings of the five great universities of the United States. Mr. Corbin is a graduate of Harvard, and a great admirer of that institution, but he prefaces his description of Wisconsin University with the following:

"Four years ago, when a member of the British Parliament, who had come to this country on the Moseley educational commission, the Honorable William Henry Jones, placed the University of Wisconsin in a list of our five leading institutions of learning, and excluded from the list Yale, Princeton, Columbia, Pennsylvania, and Johns Hopkins. Surprised he proceeded to state his opinion that Wisconsin stood above even the four other institutions which he named as of the first order. He said: 'The University of Wisconsin is a whole of three parts of the state, for it is a university of people; sane, industrial, and progressive. It knits together the professions and labors; it makes the fine arts and the social sciences the handmaidens of the practical life—highly characteristic fact.'"

"The state universities of the West lay chief stress upon immediate practical results—the technique of industry. Wisconsin is different. Its watchword is utility. As President Van Hise has frequently expressed it, its aim is to make the university 'a service to the people of the state. The new work done by the University Extension Division last year was unique in the educational annals of the world. It not only taught more than 4,000 students within its halls, but it gave instruction to more than 1,200 residents of Wisconsin by correspondence—citizens who could not afford the time and money to reside in Madison. It also aided organizations which included more than 3,000 members in the study and discussion of the great practical and economic problems of the day. This was in addition to the number of people instructed by the farmers' institutes which it conducted in every county of the state. It is in this respect that Wisconsin ranks first among American institutions."

Mr. Corbin is right. The watchword of the University of Wisconsin is "utility"—usefulness to all the people of the state. The new work done by the University Extension Division last year was unique in the educational annals of the world. It not only taught more than 4,000 students within its halls, but it gave instruction to more than 1,200 residents of Wisconsin by correspondence—citizens who could not afford the time and money to reside in Madison. It also aided organizations which included more than 3,000 members in the study and discussion of the great practical and economic problems of the day. This was in addition to the number of people instructed by the farmers' institutes which it conducted in every county of the state. It is in this respect that Wisconsin ranks first among American institutions."

Such a tremendous expansion of the influence for good of a university is not only unexampled, but is the forerunner of a tremendous development in the educational work of the world. How different from the work of the past centuries ago when the student membership was confined to the zone of the wealthy and literary classes, and when even the books were chained to the walls of the library."

UNIVERSITY

TEACHES TRADES

University Extension Offers Substitutes for the Old Apprenticeship System.

Until a generation ago the young men who were trying to learn trades were apprenticed to men who had become successful in the calling, and were given the best of instruction by the men in return for their work. During the last few years the system of apprenticeship has been abandoned and the results have been disastrous in many ways. Young men have often gone into shops and commenced work at machines, and have remained at these machines until they became mere automatons, and were beyond the age when they could learn new lines of work easily. There has been a constant complaint on the part of manufacturers that they could obtain no skilled labor as they needed. When it has been necessary in many of our shops to go to other shops, or to technical schools for help. This has made the workmen dissatisfied, and in many cases they have left their employers and gone to other shops, where they were not only interested in their welfare, when in reality the employers would have been glad to promote men from the ranks of their employees if they could have afforded to do so.

Practical Instruction Given. Under the system established and maintained by the University of Wisconsin through its Extension Division these men are regularly taught by instructors who not only have the technical knowledge, but who have also had practical experience in shop work and know the conditions, and who have developed ability as teachers. When a class in a large shop is spread over a half day in the plant. He goes from one student to another and watches his work and gives him a better workman. When he finds that a young man has learned all he can at one machine or at one line of work he goes to the office and suggests to the employer that two men who have each acquired all they can at the machine or work which they are doing shall exchange work. When he finds a young man who gives evidence of some of the

QUALITIES OF LEADERSHIP

he suggests to the employer that they give him a somewhat more responsible position. He also aids the young men by loaning them books and journals for editorial reading, and does all in his power to stimulate ambition, and to show them that by wider education they can secure better opportunities. This personal care of a strong man with the students as individuals, and in their classes, aided by the stimulus given by their class room work inspires an altogether different attitude toward these studies from that shown by the isolated student of the ordinary correspondence schools. The best evidence of the value of this work is given by the enthusiasm of the students and employees.

Valuable Bulletins Published.

Among the methods used by the University Extension Division of the University of Wisconsin to disseminate valuable information among the people in all parts of the state, is the publication of bulletins, monographs, and other papers of the state. These bulletins, which have been investigated by the members of the faculty, or by the various departments of the general government, or by the various departments of the state government, are published in a bulletin form and distributed among the people to whom it will be helpful.

Comparatively few of these bulletins have yet been published, but a large number are in process of preparation. Some of the range of knowledge which these bulletins will cover is shown in the titles of those already issued: Tuberculosis—Organization, Prevention and Cure of Tuberculosis; Frost in Wisconsin—Occurrence, Prediction, Methods of Protecting Crops Against Frost; Suffering from Electric Shocks; Methods of Protecting Trees Against Diseases; The Fireless Cooker.

The method of disseminating information is used in connection with the lectures on practical subjects which are given by University professors in various parts of the state. For instance when a lecturer is given upon tuberculosis, and the means of preventing and curing it, a very practical brief circular is put into the hands of each of the students, which states briefly the rules and methods which should be followed by a person who is healthy or wishes to guard against infection. The rules of conduct for one who already has the disease, and for members of families and communities in which tuberculosis patients are residing.

FARMERS' CLUBS

The Extension Division Wishes to Aid One Thousand Farmers' Neighborhood Clubs.

The University Extension Division of the University of Wisconsin has been doing a remarkably successful work in the farmers of the state during the past year in helping them to organize into clubs and giving suggestions as to the topics to be discussed, and either loaning, or directing the clubs to places where they may secure material for the study and discussion of matters of practical interest to themselves and their families. In aid of this work it has issued a bulletin entitled "Farmers' Clubs" which discusses their organization, their programs and their studies. This bulletin gives the text of the constitution of a club which has been organized and does not suggest work for more than a season. It also gives a suggested order of exercise which may be varied. It suggests too, a number of topics and bulletins or books which may be obtained without cost, for their careful study. Among these are such practical subjects as: What the Farmer Loses by Bad Roads. Concrete on the Farm. Kinds of Co-operative Stores in the United States; Their Success and Failure. Wisconsin Traveling Libraries. The Principles and Maintenance of Soil Fertility. The Value of Standard Bred Corn Seed. Co-operative Fruit Marketing. Strawberry Culture.

It is evident that if the farmers of the state of Wisconsin can be gathered in clubs and inspired to an active interest in modern methods of agriculture the results will be of tremendous value to the state as well as to individuals, and their families. The mutual acquaintance and interest in helpful subjects will stimulate a better social intercourse, and better feeling in the neighborhood, and it will lift the whole plane of rural life. The whole plane of rural life will be lifted, and the petty troubles which often detract from the neighborhood life in rural districts.

In our great federal and state departments which deal with improved methods in agriculture, there is great complaint that the results of their work are not understood, accepted, and put into practice by farmers as rapidly as they ought to be. It often takes nearly a generation before the great results of farmers put into practice methods which have been practically proved to be profitable in our great

CRANBERRY NOTES.

How to Fight Cranberry Insects.

Those interested in the cultivation of cranberries, and the number appears to be increasing, will be glad to know that the Massachusetts Agricultural Experiment Station has just issued a brief bulletin telling how to fight such insects as are injurious. The directions contained in this bulletin, which is in effect a revision of an earlier bulletin on the same subject, are based upon the observations and experiments of an expert stationed in the cranberry district for two years.

This bulletin will be at once sent to all cranberry growers whose addresses are in possession of the station. Others interested will be able to obtain copies as long as the supply lasts on application to the station.

Address: William P. Brooks, director, Massachusetts Agricultural Experiment Station, Amesbury, Mass.—Wareham Courier.

Cranberries Are Plentiful

Kansas City, Jan. 9.—The temporary workmen, which has characterized the cranberry market since shortly before Christmas has been almost entirely removed and the market supply of berries is generally light, as are stocks over the entire country, according to advices received by the dealers here. Demand, both local and from the country, is picking up, although orders are generally for small quantities, but for immediate shipment. Some Wisconsin berries are being shown and are being sold at the jobbing trade at \$12 to \$13.50 per barrel, while fancy late berries were worth \$14, fancy early and medium the same and extra fancy Bell & Hughes about \$14.50.—Packer.

Cranberries in Light Supply

Pittsburg, Jan. 8.—The market here was practically bare of cranberries this week, but a few were offered mostly brought from \$12 to \$14 per barrel. It is expected that supplies will be liberal next week, however.—Packer.
